- SQL

Tools
- Grunt
- Git
- Flask
- Nginx

Techniques
- Responsive Design
- TDD
- Version Control

Experience

237
eCommerce Specialist (Aug 12 - Present)

Manage an inventory of 20,000+ unique items. Developed a standalone cross platform app to expedite the entry of new item listings using Python/TkInter and CSV files. Implemented an inventory auditing and updating system using the eBay API. Created a more efficient invoice system for order processing. Automated administrative and production line tasks using Python and test automation software Sikuli.

Castle Rock Music
Saxophone Instructor (Mar 12 – Present)

A music store and instruction facility. Developed and designed a Google App Engine website/app with a student resource portal. Students are able to log in and access lesson notes and other resources.

Education

University of Denver, Colorado (2003 – 2007)

Bachelor's of Music degree in Performance
